

Winner Announced In Name Contest

Miss Ethel Morgan of McAllen, Texas has been judged the winner of the five dollar prize offered as the reward for a name for Cameron's newest amusement park. This name was selected from some four hundred names that were submitted. The following letter explains the new name:

McAllen, Texas, June 22, 1929.
Mr. Elwood Cammer,
Cameron, Texas,
Dear Sir:

In regards to your notice in the Cameron Herald as to a name for your new park that you have been recently constructing, I would suggest "Skeezix." Skeezix, is a name that is easily remembered, also it is a name that the wind could carry far and wide.

This name might not appeal to you, however I hope it does. A neatly printed sign, "Skeezix Fair Ground" and "Dance at the Skeezix," or "Skeezix, for music, dancing and enjoyable evening," would be a very attractive advertisement indeed.

Skeezix, you know, in the comic section of several papers is always young, pictured as youth in it's happiest period of life. So why not let your play ground of Cameron, Texas be advertised as the "Land of Youth?"

Thanking you for your time spent in reading my letter and hoping to hear from you in regards to my suggested name.

I am a regular summer visitor in and around Cameron country, my father's relatives are natives of Milano, and my aunt and uncle live in Gause, Mr. and Mrs. W. R. Webb. I have many other relatives however.

When I visit Milano and the neighboring towns and cities around there I hope to visit the new pleasure park also I wish very, very much to "See my name swinging way up high."

Thanking you again, I remain,
Sincerely yours,
Miss Ethel Morgan,
McAllen, Texas,

J. A. HOSCH IS SHOT TO DEATH HERE SATURDAY

FRED MATHIS OF YARRELTON
HELD IN FATAL SHOOTING
NEAR SANTA FE

J. A. Hosch, 51, prominent farmer in the Elm Ridge community west of Cameron was shot to death about six o'clock Saturday afternoon, July 6 on the street near the Matocha Hardware Company in Santa Fe town.

Fred Mathis of Yarrelton, surrendered to Deputy Sheriff Will Vaughn at the office of Sheriff Blaylock shortly after the shooting, turning over to the officer a 38 calibre pistol from which two empty shells were taken.

According to witnesses Mr. Hosch was standing on the porch in the front of the store when Mathis began shooting from the opposite side of a motor truck parked near the entrance. Hosch ran from the scene and fell mortally wounded at the rear of the Santa Fe Market. An ambulance of the Coleman-Eplen undertaking company took Hosch immediately to the hospital but he died on the way to the sanitarium.

An examining trial was scheduled for Tuesday but the grand jury has been called into session for Monday for next week to consider the case and no trial has yet been held.

No statement has been made by Mathis. On entering the office of the sheriff he told Deputy Vaughn that he had killed a man. He was taken to the jail.

The trouble is said to have originated some weeks ago when Hosch shot and wounded Mathis.

The shooting occurred on a busy down town street and a number of people witnessed the killing. Hosch was shot twice, one bullet entering the right breast and penetrating the base of the heart. The other striking in the left forearm breaking a bone.

Funeral services for J. A. Hosch who was killed Saturday afternoon, were held from the Catholic church Monday morning at nine o'clock, with Rev. Father Apel officiating. Interment was in the Catholic cemetery, Coleman and Eplen having charge of arrangements. The body of Mr. Hosch, who lived in a rural community near Cameron, rested at the home of his sister, Mrs. Emil Boedeker, from Saturday night until Monday.

Pall bearers were Joe Parma, Ben Boedeker, Henry Sheffield, Richard Ehler, Ralph Michalka and B. J. Matocha.

RESOLUTION COMMENDS SERVICE OF PEYTON

CHAMBER OF COMMERCE LAUDS
RETIRED PRESIDENT WHO
LEAVES FOR TEMPLE

Praise for the service of C. S. Peyton, president of the Cameron Chamber of Commerce is expressed in a resolution prepared by the committee named by President F. E. Jackson. Mr. Peyton has resigned to move to Temple to take over the management of the Southwestern Bell Telephone exchange there. The following is a copy of the resolution:

Whereas, C. S. Peyton, president of the Cameron Chamber of Commerce, has tendered his resignation, being summoned to a place of larger service and opportunity with the Southwestern Bell Telephone Company at Temple, and,

Whereas, the resignation of Mr. Peyton from this responsible place of civic leadership, is a distinct loss to the city of Cameron, and,

Whereas, the membership of the Chamber of Commerce, desires to commend him for his service as president and to express appreciation for the able leadership he has given in this place, therefore be it resolved:

First. That we express to Mr. Peyton our sincere thanks for his work as president during the months he has served in this place of leadership, bringing an active and progressive program of development for Cameron.

Second. That while we regret to lose his leadership, we rejoice in the fact that he has been called to a place of larger service with his company, and we recommend him to the citizenship of Temple who will profit by his residence there, bringing to the business and civic life of that community a progressive mind and a personality of worth and inspiration.

Third. That we express our appreciation for his life as a citizen of Cameron covering a period years during which time he has been active in

The Supreme Court Amendment

By JUDGE W. G. GILLIS

The Supreme Court Amendment to the Texas Constitution deserves the careful consideration of every voter in Texas.

No citizen wants to create useless judge ships and no citizen wishes to add to the expense of government unless some adequate return in the way of public service may be expected by reason of the additional outlay. But every citizen wants to expedite the course of justice and make our Supreme Court able to meet the demands made upon it.

Our Supreme Court of three members was created by the Constitution of 1876. John H. Reagan and Buck Walton were members of that Convention and presented a vigorous report to the Convention urging that five members be provided for to constitute the Supreme Court. These men were lawyers and statesmen of whom Texas is justly proud. They knew that even for that day and time three men could not adequately transact the business of the Supreme Court of a great empire such as Texas.

Experience has shown that these far seeing men were right. In 1879 only 3 years after the adoption of the Constitution, it was found necessary to create a Commission of Appeals to aid the Supreme Court in spite of the fact that the Court of Appeals which then handled criminal matters, also had some civil jurisdiction. This state of affairs continued until 1892 when the courts of Civil Appeals were created. At first we had three of these Courts of Civil Appeals. From time to time Legislature created additional Courts of Civil Appeals until now we have 11 of them. Yet, because an appeal could be taken from these Courts to the Supreme Court, our Supreme Court became so badly behind with its work, that in 1918 a Commission of Appeals to aid the Supreme Court was created and has been at work continuously since that time. This does not give adequate relief because the Commission does not have power to preme Court and all opinions prepar-

act except upon approval of the Sued by the Commission must be passed upon by the Supreme Court.

In effect we have 9 members now acting as a Court of last resort, but 6 of the members (Commissioners) are so restricted and handicapped that they cannot render efficient service because their work must be approved by the other three.

Under the Constitution, as it now stands, the Supreme Court of three members must transact its work in 9 months. A three months vacation is made mandatory by the Constitution itself.

The proposed Amendment provides for 9 members and makes the session of the court continuous. Certainly more work and more efficient work can be accomplished if the Amendment is adopted.

When the present Constitution was adopted creating the Supreme Court as now constituted, there were 450,000 people in Texas. Now there are 5,000,000. Then there were no cities in Texas. Now we have 4 cities of around 200,000 each, and hundreds of towns of 5000 and more population. Then the West was wild and uninhabited. Now it is one of our populous and wealthy sections. Then the occupations were agriculture and stock raising. Now practically every industry found in this great industry of ours is represented in Texas.

Only four states in the Union now have as few as three Supreme Court judges—Texas, Arizona, Nevada and Wyoming. All the other states have from 5 to 9 judges.

Nevada has only 57,000 people, Arizona 200,000 and Wyoming 400,000 while Texas has 5,000,000.

Considering the wealth, size and population of Texas and the amount of litigation, she ought to have, a Supreme Court large enough to efficiently function.

A vote for the amendment is a vote for a simple procedure and a more efficient and expeditious administration of justice. It is hoped therefore that the citizens of Milam County will give the amendment a favorable and generous support.

FIDDLES OF OLD MASTERS PEAL FORTH MUSIC OF SIXTIES; UNCLE MIKE JAMES LEADS SUMMER GATHERING IN CAMERON

Two celebrations hold the center of interest in Cameron this week.

Around him gathers a company of old time masters with the fiddle and bow and evenings this week have been given over to good old times. The fiddlers met at the residence of George Mode last week and a good company of guests heard old tunes. Tuesday night at the home of J. W. Haygood the program was repeated. Again Thursday night the old masters are to play at the home of Mr. Haygood.

civic affairs and giving his administrative ability to one of our most helpful and appreciated institutions, the telephone exchange, making of it one of the best in all the south.

Fourth. That the Chamber of Commerce express by vote of its members the sentiment of appreciation contained in this resolution, that a copy be furnished the local newspapers for publication, a copy made of record in the minutes, a copy mailed to the Chamber of Commerce in Temple and a copy be mailed to the Southwestern Bell Telephone Company in testimony of our esteem for him and his good work as a citizen and business man of Cameron during these years.

EZEKIEL TEACHES PERSONAL RESPONSIBILITY

LESSON TEXT—Ezekiel 33:1-23
GOLDEN TEXT—Every one of us shall give an account of himself to God

PRIMARY TOPIC—Ezekiel's Message of Warning
JUNIOR TOPIC—Ezekiel's Message of Warning

INTERMEDIATE AND SENIOR TOPIC—How God Takes Note of My Life
YOUNG PEOPLE AND ADULT TOPIC—Individual Accountability to God

I. Ezekiel's Responsibility (vv. 1-9)

The commission of the prophet is now renewed. Hitherto his utterances were mainly of a threatening character, having as their objective the turning of the people from their wicked ways. They refused to heed the prophet's words, the result of which was the coming of God's judgment upon them in their captivity and the destruction of Jerusalem. When it became clear that the people would not heed God's warnings through the prophet, the prophet was to be silent. This tragic situation was portrayed through the death of Ezekiel's wife. Awful as this blow was, he was to cease from weeping, showing that even a personal sorrow was not to be expressed at the time of God's awful judgment.

After the renewal of the prophet's commission his messages were mainly consolatory. His responsibility is set forth under the figure of a watchman. God gave him this position. Every minister and Sunday School teacher is a watchman. Indeed, upon every believer has been imposed certain responsibilities. Two things are required of a watchman.

1. To hear the word at God's mouth (v. 7).

The source of the message of every minister and Sunday school teacher is God's Holy Word. As the prophet did not originate his message but received it at God's mouth, so should it be with every minister.

2. To sound the warning (v. 7).

After hearing God's message he was to proclaim it to the people. The watchman's duty is both to hear and to speak. The people are to be warned of the impending danger. Failure to sound the alarm makes the watchman guilty of the blood of the sinner (v. 8). After the warning the sinner carries his own guilt (v. 9).

II. God's Attitude Toward the Sinner (vv. 10, 11).

God had declared in His word that unfaithfulness on the part of His people would cause them to "perish among the heathen" (Lev. 26:38, 39).

In view of this pronouncement, some were disposed to say that their case was hopeless. To meet this attitude of despair, the prophet assured them that God had no pleasure in the death of the wicked, but that His sincere desire was for the wicked to turn from his way and live. Regardless of what their past had been He assured them that the future was bright, but God's command and plea is, "Turn ye from your evil ways, for why will ye die, O house of Israel?"

III. The Sinner's Personal Responsibility (vv. 12-20)

God has created the members of the race as volitional beings, possessing freedom of choice. They have moral discernment, enabling them to distinguish between right and wrong. The following principles govern the sinner and the watchman:

1. Past righteousness will not avail for present sin (v. 12).

When a righteous man turns to do iniquity, his past seeming righteousness will be of no avail.

2. Past sin does not make impossible present acceptance with God (vv. 12-14).

By virtue of the law of habit, every sinful act makes it harder for the sinner to repent, but God's mercy and enabling grace are such that if the sinner repents God will restore.

3. Restitution required (vv. 15, 16).

The proof of penitence is that so far as possible the sinner makes amends for wrongs done. There is no merit in the act of restitution, but such act helps the individual to overcome his besetting sin.

4. God's ways are equal (vv. 17, 20).

God holds man responsible for his own deeds. The child is not condemned because of the deeds of its father. This does not do away with the law of heredity. Regardless of what one's past life has been, God's grace in Jesus Christ blots out his record and he stands accepted in the Beloved.

On the Job

While Moses was caring for the sheep God's great commission came to him. If God has any great thing for us to do, we need not fear that He will miss us because we are busy with our common tasks.

Belief in Jesus Christ

The condition of salvation is that kind of belief in Jesus Christ which anticipates repentance for the past and in amendments of life for the future.—L. L. Noble.

Ceredo, W. Va.—In telling how she was benefited by taking Cardui, Mrs. Perlie Yelkey, of this place, says: "At one time, I had a very serious spell which left me weak. At times, I would suffer such intense pains across my back and in my side that I could hardly stand it. "I endured this over and over again. Every time the pains were worse than before. "I was in despair because nothing helped me. I tried several remedies, but I continued to suffer. "One day, I read about Cardui. Other women told how they had gotten strong and well after taking it. I have often been thankful for that day, for after I had taken Cardui for awhile, I felt like a different human being. "It did not seem possible, but I did not suffer the old, torturing pains, and I really felt well. I can heartily recommend Cardui, for I know how much I improved after I took it. Since then, I have taken it several times when I have needed a tonic, and I have always been benefited. It is a wonderful help." All good druggists sell Cardui. Try it for your troubles. NC-196

Ford Day On Beach At Galveston July 21 With Program

Every Lizzie is to have her day. Therefore, July 21 will be a great day at Galveston Beach. The Galveston Beach Association has planned to pay signal honor to the great Ford family and accordingly, a general invitation has been extended to every Ford owner in the southwest to load up the family and make the pilgrimage to the seashore where an elaborate program of entertainment and many valuable prizes await them.

Hubert Hefley, local Ford dealer has received full information on the big event and is passing it along to all Ford owners in this locality. Judging by the interest being shown, Cameron will be represented at the Ford family reunion.

According to information received here, the Galveston committee will meet all incoming Fords as they cross causeway leading into the city and present them with a free ticket entitling them to participate in the day's program and prize distribution. More than a score of valuable prizes are announced including a brand new Ford to some fortunate visitor. No Galveston owned car is eligible to participate.

With popular priced hotels, de luxe tourist camps and the thirty miles of free camping sites on east and west beaches, Galveston can take care of several thousand more visitors than ever before and 'Ford Day' is expected to attract one of the largest crowds of the season.

Henry Ford, the man who put America on rubber tires, has been especially invited to attend.

Performance Counts! Watch the new Ford on the hills, in traffic, and on the open road, and you will know that it is a truly great car

THE minute you see the new Ford car you will be delighted with its low, smart lines and the artistic color combinations. There, you will say, is a truly modern car.

But a still greater thrill awaits you when you slip into the roomy seat behind the wheel and start away for your first ride.

You will like the feeling of power that the new Ford gives you—the comfortable, prideful feeling that comes from having a car worthy of any occasion and equal to every emergency.

You will like the flexibility and safety of the new Ford car as you weave in and out of traffic—its flashing pick-up as the light turns green and the sign says "Go." You will like its smooth, quiet steadiness on the open road where you can lazy along according to your mood, or do 55 and even 65 miles an hour if you desire. The new Ford has unusual speed—no doubt of that!

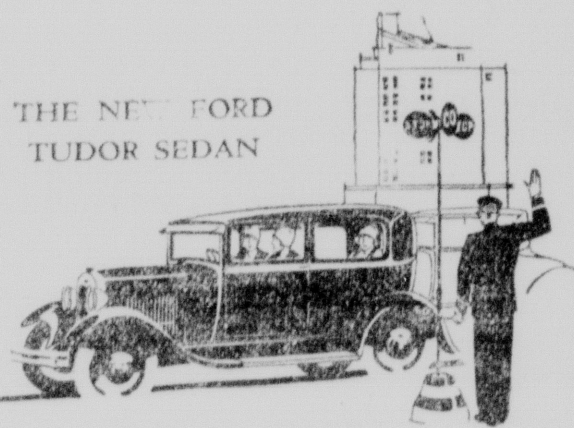

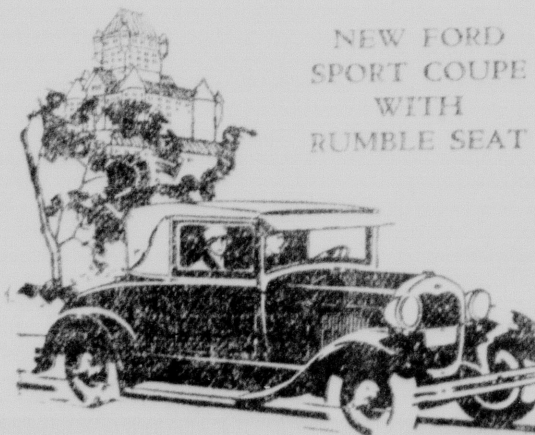

There are still other reasons why the new Ford car is a great car to own and drive. Three important reasons that mean a great deal to you: reliability—economy—long life.

The new Ford is made to stand up under thousands of miles of steady running over all kinds of roads, and save you many dollars in repair bills.

Come in and see this great new car. Inspect it carefully—part by part. Then know the thrill of driving it. By its performance you will realize that there is nothing quite like it anywhere in design, quality and price.

BURKHEAD WELL NEAR THORNDALE IS WATCHED

CHAPMAN GETS LEASE JOINING 'DISCOVERY' WELL IN FIELD THERE

The Burkhead et al well on the Weigmann tract started drilling after having core of the Buda Limestone passed on by Dr. Whitney, head of the geological department of the University of Texas, who expressed great faith in its outcome, stating he had previously recommended this location to parties after carefully working out the immediate district in Milam county.

Mr. Burkhead advises he has secured all material necessary to care for the encountering of a gusher either in the Buda, Georgetown or the Edwards Limestone.

This well is being watched with great interest by oil men from all parts of the Texas oil belt as the pecan gap formation was picked up at approximately 917 feet showing that the well was located topographically on the down throw side of the fault and the Austin Chalk was found on the up throw side which resulted in gas and a show of oil coming up. At 1666 feet the Eagleford Shale was found but pinched out after ten feet and the Buda entered into some two hundred feet higher up than found in any well in the entire field. The well was shut down for several days in order that Mr. Burkhead might have the core of the Buda passed on by Mr. Whitney of the University of Texas, who was greatly pleased and expressed his opinion as to its final outcome most favorably. Within another hundred feet the owners of this well expect to enter in the actual producing gusher of Milam County below the Austin Chalk either in the Buda, Georgetown or the Edwards Lime.

Johnson Well To Be Put On Pump

E. L. Chapman has his No. 3 derrick practically completed south and east of the discovery Michalk and Clark well and will probably spud in at once. The Chapman No. 2 located on the Knight land further south and east of the Michalk well is drilling in the Austin Chalk. Chapman No. 1 east of the discovery Michalk and Clark well has been plugged and abandoned, after drilling some distance into the Edwards limestone. Mr. Chapman has been fortunate in the securing of ten acres immediately surrounding the discovery well and will probably clean out and place it on the pump endeavoring to make a commercial producer.

Elliott on the Moore farm north of the Michalk well, is making good progress in work and it is reported that they are within a few feet of the depth in the Buda Lime where oil was discovered on the Johnson farm by Michalk and Clark.

Hoffer Spuds In

Hoffer Oil Corporation south of the Thrall gusher field, has spudded his well and it is advised they will continue drilling with all speed possible. This location is in line with the Burkhead well, which is located northeast and is believed to be on the same faulting.—Thorndale Champion.

Distant Hills Appear Near

We have all had the experience while out riding of approaching a hill from a distance. The hill looks very steep and difficult. We find often if we go ahead that as we approach the hill it seems less steep and if we keep on climbing, the first thing we know we are on top. It hasn't been nearly the task that we thought it would be.

Many difficulties that lie in the way of progress of a town appear from a distance to be insurmountable. As we look forward at the things that lie in the path of Cameron's progress we are prone to believe that it is futile to attempt to overcome them. They seem too large and difficult for our small means.

But like the hill in the road if we will resolutely push forward and look only at the object to be attained the difficulties will seem less and less formidable. The way will open up if we will but persist and if we gather together all of our energy and resource and use it for the building up of our home we can accomplish wonders for it and for every business in it.

Somewhere someone has said, "If you don't give up too soon, you're bound to get what you go after, no matter if the whole world says you can't do it."

Chicago Minister
Denounces Cannon
for Stock Dealing

Chicago, July 7.—Bishop James Cannon Jr., of the Methodist Episcopal church, South, was tonight declared an unworthy leader by Rev. John Thompson, at the First Methodist church here.

The latter asserted that the bishop's recently disclosed bucket-shop speculations would serve to class the southern religious leader with the exponents of modern American paganism, stating:

"Bishop Cannon has brought reproach to the church of Christ and the cause so dear to him and to all lovers of temperance and prohibition. 'He has given the enemy a good chance to scoff at all of us. The church of which he is a bishop cannot afford to ignore this.

The bishop's bucket-shop speculations raise the whole question of whether Jesus' way of life and the New Testament standards should be taken as seriously relation to covetousness and to money matters in general as to prohibition and other pet matters on the lips of present day reformers," Dr. Thompson added.

AN ARMY of
65,000

Loyal, Aggressive Employees

AT YOUR SERVICE

That is the reason railroad men and women, generally, are such wonderfully fine people—because they have the knowledge that they are engaged in providing a service that is both necessary and very much worth while. In no other occupation is there greater opportunity for genuine service.

Therefore, it must of necessity follow, that the most successful and progressive railroads are manned by employees who are most loyal, aggressive and progressive. It also follows that those railroads whose employees possess the finest esprit de corps, the highest morale, the greatest loyalty and aggressiveness, automatically become the most progressive and successful.

Missouri Pacific Lines and Missouri Pacific employees both are fortunate. The entire system is manned by one of the finest organizations in the history of the world—and the Missouri Pacific army of 65,000 employees is following the standard of a successful and progressive American institution.

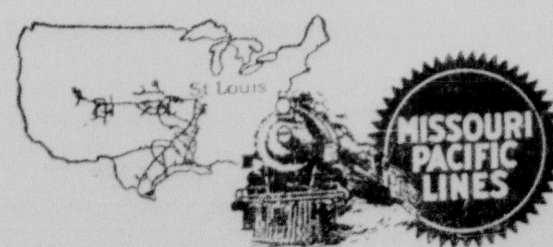

Result—the public benefits almost beyond measure. Every individual in the organization is fully aware of the importance of team work and there are few armies—given military organizations—that can exhibit the singleness of purpose, the effectiveness of concerted attack, the unanimous joy in achievement that motivates the Missouri Pacific Lines army.

Shippers and travelers who have discovered these things have benefited and profited. Some have discovered them accidentally. Others have purposely sought to test out the Missouri Pacific Army. Without exception the army has been found ready and willing to attack the largest or the smallest problem of the shipper and the traveler in order that the Missouri Pacific Lines might be of greatest possible service and so live up to the motto that is emblazoned on its banners and written indelibly in the hearts of all—A Service Institution.

The Missouri Pacific Lines Army is proud of its railroad and the railroad is proud of its army. Both seek greater opportunities to be of service.

I solicit your co-operation and assistance.

The Essex Car

Is only one of the many desirable things we have in stock. It is the best of its kind, of course in our opinion. Equally as good in its way is the spirit of courtesy we put behind it, the maintenance system we provide for all its owners, the personal interest we take in each and every one of them, the conscientious effort we make to do things right and earn our customers friendship.

The Essex car is a great machine and deserves that kind of backing. But the credit for that goes to the Essex factory. We could not build it here if we wanted to but we can build a business atmosphere to match it in quality, and we work days and nights to accomplish that purpose.

The Essex owner is the judge of our success. Ask him about the spirit of our business.

BLIND MEN

In the 'Buddhist Philosophy of Life' you will find this sentence:

"There was a man born blind and he said: 'I do not believe in the world of light and color. There is no sun, no moon, no stars. No one has ever seen these things.'"

All about us there are men who say: There is no such thing as love. There is no such thing as loyalty. There is no such thing as unselfishness. There is no such thing as virtue. All those things are but dreams and visions.

Why do they say such things? You think that perhaps they do not dream what they say. You think they are just talking for effect or to raise an argument.

The case is sadder than that. They give voice to this belief because they are men who are blind. Perhaps they were born as blind men and never had a decent chance to get their eyes open. Perhaps they have become blind thru habits of thought and action.

At any rate they are like the man in the Buddhist book. They are blind and they say that there is no love, no loyalty, no virtue.

They are men to be pitied because they are spiritual cripples.

They have never experienced the finer emotions of life in their own darkened lives. They have not had these emotions often enough and strong enough to believe in their reality.

You who read this may never look out of your window in the night. Nevertheless the stars are very beautiful. Be sure of that.

The next time you hear a man or woman deny life's beauties, its spiritual achievements, its satisfactions, its deep and worthwhile experiences do not be misled.

Life is all right. Folks, for the most part, are all right. But you are talking to a blind man.

Have a look at yourself, too, and your own emotions and conclusions. When you are discouraged, when you find yourself cynical, when you doubt the eternal verities, make sure that you are not becoming a blind man.

For the blind man in the story said that there were no such things. We acquaint ourselves with the like of him and we find he has no eyes to see.

How about ourselves? Are you a blind man? Am I?

May we all have enough love and loyalty and unselfishness in our own lives to enable us to recognize it in others?

Even in sowing our wild oats many of us expect someone else to do the digging for us.

THE UNPOPULAR PEDDLER

The summer complaint with which the housewife suffers most is the complaint that her mornings and afternoons are spent listening to and trying to shut the door against house-to-house canvassers and itinerant peddlers. At this season of the year she has much in common with the doorman and purchasing agent.

Canvassers and peddlers all come under the category of pest, but they can be divided between the deserving and their wares can be divided between the good and the bad.

If there were not so many of them one would willingly give time and money to the young men and women who, through canvassing, partially or wholly finance their next year's schooling. And then the frauds cannot always be distinguished from the bona fide.

But it is against the peddler that the housewife directs her complaint and he is obnoxious and excessively insistent and is not above trickery and dishonesty.

Patrons of the peddler often injure two in benefitting one. They take away from their own merchants, who spend their profits at home, business that is rightfully theirs, giving it to a fly-by-night stranger. And not infrequently peddlers' bargains prove to be gold bricks.

BEAUTY A COMMUNITY ASSET

There are three phases of community development—commercial, industrial and residential. The normal community directs its development through all three lines and the third suffices for the suburban colony, but no center of population can afford to neglect that third department of community growth.

Because the city, town or village is primarily a place in which man can find comfort and happiness, that community fails to accomplish its first purpose when it neglects the residential for the industrial and commercial.

Does Cameron appreciate the value of attractive homes and beautiful residential sections as a community asset, and is it taking the fullest advantage of its possibilities in this direction? It should be a place of which the fullest advantage of its possibilities in this direction? It should be a place of which the tourist will say, 'I would like to live here.' Is it?

Man, in common with the lower animals, builds his home where he finds his food, it is true, but because he is a 'higher animal' he discriminates between two places equally provident in mere sustenance. So the commu-

nity that would attract homemakers must have more to offer than just employment.

One way to build Cameron in size and prosperity is to strengthen its claim to the titles of 'the city beautiful' and the 'city of homes.'

LITTLE COMPETITION

One of America's most successful men, out of cynicism or hard experience, has said that only one man in 50 renders intelligent service. Another industrial leader has even less faith in man as a beast of burden for he contends that there are 99 who lack intelligent enthusiasm and a sincere desire to serve, to every one that is eager and ambitious, conscientious and courageous.

If it is true that the average worker is a clock-watcher, duty-dodger and is otherwise inefficient incompetent, that knowledge is worth money to men and women with that inherent or acquired genius for doing good work. It is their cue to put everything into a field in which little competition will be encountered.

And what of the ninety and nine? They fool nobody, unless it be themselves. They are not 'getting away with murder.' They hurt their employer and their fellow workers, but they hurt themselves more.

A man must make good or make room—go forward or drop back. There is no resting on your oars in the swift stream of present-day enterprise and human endeavor.

Failures are born, not made by adversity, environment and lack of opportunity. But some people are a long time learning that they were not born to be failures.

The sexes will not be equal until the prospective bride is asked if she can support the bridegroom as well as dad has been doing it.

Mussolini, according to the fascist code, is always right. This would be fine if there were enough fascist codes to go around.

METHODIST CHURCH

Every thing went fine last Sunday. The Sunday School attendance showed a nice increase over the previous Sunday. The Leagues were well attended. The crowds at the hours of worship were encouraging.

The Sunday School will meet as usual at 9:45 and the Leagues will meet at 7:00.

The pastor will preach at eleven. Everybody should come to the morning worship as there will be no worship at night.

Mrs. A. A. Lee, wife of the new band master in Cameron will render a solo at the morning service and Mr. Lee will play a violin obligato to the solo. This will be their first appearance at a church service in Cameron and the public is invited to hear them.

Miss Alice O'Neal Is Honor Guest Tuesday At Bridge Party

Miss Alice O'Neal of Atlanta, Texas, was honored Tuesday morning, when Mrs. Katie McCall George entertained with three tables of bridge at the home of her parents, Mr. and Mrs. E. J. McCall. Nasturtiums and zinnias furnished floral adornment for the living room, where the tables were placed.

Mrs. Gene Longmore of Rosebud made high score and Mrs. Annie Taylor, also of Rosebud, was low. They were awarded a novelty fruit bowl and a set of bridge tallies and pads. Guest prize was a lovely chiffon handkerchief. Table favors, which were boxes of body powder, were cut by Miss Dallis Young, Mrs. Eugene Green and Mrs. Penn Wolf.

The hostess served a salad and a dessert course on trays which were centered with baskets of nasturtiums and daisies.

Out of town guests other than the honoree were Mesdames Gene Longmore, Earl Blasienz, Annie Taylor and Judge Glass, all of Rosebud.

Evangeline Chatmas Guest of Gladys Davis At Forty-Two Party

Naming as honoree her guest, Miss Evangeline Chatmas of Marlin, Miss Gladys Davis entertained with a handkerchief party Monday afternoon at the home of her parents, Mr. and Mrs. Judd Davis, with games of 42 furnishing entertainment.

Eighty-four favors were linen handkerchiefs; high score award, which fell to Miss Nancy Rae Slocumb, was a large chiffon handkerchief; low score, which was won by Miss Dorothy Lee Lane of Uvalde, was a small georgette handkerchief. And the guest prize was a dainty linen kerchief.

During the games candy and punch were served, and at the conclusion, the hostess, assisted by her mother, Miss Chatmas and Miss Imogene Sapp served ice cream and angel squares.

Those enjoying the hospitality were the honoree, Misses Dorothy Mae Lane of Uvalde, Frances Sharpe, Dora Emily Moore, Helen Blaylock, Euline Slaughter, Lucille Green, Imogene Sapp, Bonnelle Neimast, Nancy Rae Slocumb, Marguerite Ford and the hostess.

Viola Sustek Hostess At Lawn Party Here

Miss Viola Sustek, daughter of Mr. and Mrs. J. A. Sustek, entertained members of the younger set with a lawn party at the home of her parents last Wednesday evening. Zinnias were used for floral decoration on the porch, and two large American flags reminded the guests that it was the eve of July 4.

About thirty guests enjoyed the games and strolls that formed diversions. Punch was served throughout the evening from the porch, and late in the evening brick ice cream and angel squares were passed. Tiny silk American flags were plate favors.

Golf Links Hold Out Fame To Cameron Boy Now In Oklahoma

A Cameron boy—W. H. Nabours—is attracting attention on the golf links in Oklahoma. A clipping from the Daily Oklahoman was received this week by The Herald.

Mr. Nabours is a brother of Homer Nabours, county clerk and a cousin of F. S. Lesovsky of Cameron. He was in Cameron in 1924 and 1925 with the Coleman Chevrolet Company and now a resident of Oklahoma City.

The following interesting comment from the sport page of the Daily Oklahoman will be of interest:

What is so rare as a day in June? asked the poet as he wrote of the search of the Holy Grail.

Answer: A Sunday in June that produces two holes in one, two no-hit baseball games in a single contest in Oklahoma City and nine hits in nine times at bat for Buster Chatham of Pueblo's Western league club.

No 300 bowling scores, love-game an glove-set tennis matches, royal flushes or perfect bridge hands were reported, but that fact fails to bring moans from the lips of Robert K. Johnston and W. H. Nabours—Oklahoma City's newest 'cuckoos.'

Number 10 at Lincoln park, a 175-yard par three hole, furnished the scene for Nabours' tee-to-cup shot. He used a brassie. The ball hit in the fairway short of the green and rolled

unwaveringly toward the pin and into the cup. The feat failed to upset Nabours' equilibrium, for he turned in a 42 for the second nine after taking 43 for the first. He was playing with J. H. Beaver and J. R. Rasor.

Johnston, whose offices are in the Colcord building and whose residence is at 1219 West Twentieth street enlisted strategy as a first mate in plunging his ace into the 178-yard seventh hole at Oklahoma City Golf and Country club Sunday. Going into a stiff wind, he used his driver off the tee instead of the customary iron for the par three hole and was rewarded with the sight of the sometimes stubborn little pill rolling into the cup.

BE ON THE SQUARE
With Yourself and Your Purse

When you need Building Material, for any purposes, be square with yourself; don't try to 'kid' yourself into believing 'cheap' lumber will do. It costs as much to work cheap lumber as it does to work good stuff,—in fact your carpenter will tell you he cannot do as much work in a day with cheap materials,—so why, (being square with yourself) let the 'Lure of Low Price'—which indicates, low quality, influence you. You do not really save, and you might be sorry.

Our reputation for over thirty-five years for Quality will be sustained, and we will appreciate your business.

MISS BERYL NAYLOR BECOMES BRIDE OF J. H. McCONNELL IN OKLAHOMA CITY CHURCH WEDDING JUNE 20

Simplicity was combined with a-cred beauty to make lovely the wedding of Miss Beryl Hall Naylor, daughter of Mr. and Mrs. Howard N. Naylor, 529 1-2 West Eleventh street and Joseph Hilton McConnell of Frederick.

The vows were exchanged Thursday June 20 at 9:30 o'clock in the First Christian church in the presence of a large group of relatives and close friends. Rev. Ernest C. Mobley performed the ceremony. The couple left immediately afterwards for a honeymoon sojourn to Dallas and other points in Texas and will return to Frederick to make their home.

Pink and white gladioli in floor baskets together with palms and ferns formed a pretty but simple setting for the services. Before the entrance of the bride Miss Rose Wylie sang 'I Love You Truly' (Carrie Jacobs-Bond) and 'Because' (d'Hardelot). She was accompanied by Floyd Kimes Russell who played 'The Bridal Chorus' from Lohengrin for the processional, 'At Dawning' softly during the ceremony and Mendelssohn's 'Wedding March' for the recessional.

The bride was dressed in a becoming tailored ensemble of white heavy silk designed with a plain blouse, plaited skirt and jacket trimmed with pearl buttons. She wore a close fitting hat of white felt and accessories in the same color. Her flowers were white roses and valley lilies in an arm bouquet.

Miss Naylor was given in marriage by her father and her only attendant was her sister, Miss Eleanor Naylor, who was maid of honor. Miss Eleanor Naylor wore a pink shantung frock cut on straight lines and white accessories. She carried an arm bouquet

of pink roses.

Harry L. McConnell of Frederick was best man for his brother.

For traveling Mrs. McConnell donned a dress of navy blue crepe and suntan accessories.

Mrs. McConnell attended Blackwell high school and received her college education in Oklahoma City University and belonged to the Phi Delta there. She taught the last year in the schools in Blackwell and the year before in Hominy.

Mr. McConnell attended Baylor University in Waco after graduating from the high school at Frederick. He is established in the grocery business in Frederick. Mr. McConnell is the son of Mr. and Mrs. J. E. McConnell of Frederick. They are early day residents of Frederick, Mr. McConnell Sr., being president of the Security National Bank there.

Those who came from out of town to attend the wedding were Mr. and Mrs. J. E. McConnell, Mr. and Mrs. Harry L. McConnell and Robert McConnell, Mrs. John H. Mounts and Miss Ena Bob Mounts, all of Frederick; Miss Gertrude Fey of Blackwell, Mrs. Harry F. Flaner of Ponca City, Dr. and Mrs. G. I. Walker and children, Harmony and Granville, of Hominy; Howard N. Naylor Jr., of Chickasha and Miss Marguerite House of Prague.

Mr. and Mrs. Naylor entertained informally at dinner Wednesday night in their home honoring their daughter and Mr. McConnell. The guests were limited to the bridal party and the two families.—Daily Oklahoman.

The many friends of Mr. and Mrs. Naylor will be interested in the account of the wedding of their daughter.

er. They were residents of Cameron for five years from 1908 to 1913 during which time Mr. Naylor was manager for the Southwestern Bell Telephone Co. He is now state warehouse commissioner for Oklahoma. They have been in that state for five years.

Our admiration for Lindbergh increases. The wedding ceremony was just the type one would expect the Connel and Anne Morrow to have and then this slipping away from the public's morbid curiosity was especially good. Lindbergh is the type of

idol that will live. He holds the public at arms length. The natural desire of the public is to paw over and kiss its idols to satiety. A soon as the public has done this it is through with the victim of its desire and is on the lookout for new victims. The public had its way with Hobson and killed him in a day. Lindbergh keeps it at arms length and as long as he does, he will keep its admiration.

Good Advertising Help the Sales of any Merchant

Pick up any magazine or newspaper today and you will find it filled with advertising. For the most part, the advertising is not new or strange products that have just made their appearance on the market. More often it relates to old and established lines of merchandise that have been known for years.

The manufacturers know by experience that the only way to hold up sales is thru advertising. All sorts of other schemes have been tried but advertising has proven to be the surest and the most reliable.

Advertising may not bring the customers to a store today, but by repeated advertising, a confidence is built up by which the purchasing public comes to have faith in the firm and this, everyone knows, is the largest item in cutting down sales resistance.

The regular advertisement is the surest way to build up confidence and to cut down sales resistance whether it is a large automobile manufacturer or a merchant in the smallest town in the United States.

Good advertising builds sales.

Miller Tire Tests Show Heat Ravages Have Small Effect

Tires do not sweat to cool themselves when they are hot, neither do they stop to rest. They are at the mercy of the driver. About the only way they can show the effect of a higher temperature is to wear down more rapidly in hot weather.

Of course the rate of wear depends on atmospheric temperature, on the temperature of the roadway and the speed at which the tires are driven. The humidity which makes life so miserable for many humans does not seem to add any burdens to tires. But actual high temperature from any cause, is different.

Some tires are built so that the

flexing process creates unusual heat. Others have been built on such strictly scientific principles that flexing alone raises the temperature of the tire very little. At any speed, an increase of from 40 to 60 degrees in the temperature will frequently cause an increase of wear of over 90 per cent and an increase from 60 to 80 degrees will cause an additional increase in wear of over 120 per cent on some types of roads.

In recent tests conducted by the Miller Rubber Company on Florida roads, all cars running at the same speed, all makes of tires tested showed a 70 per cent increase in wear at only 15 per cent change in temperature.

Many other factors affect the rate of wear in hot weather—curves, starting, and stopping, road surfaces, etc., all have a bearing on the wear a tire will give.

There is no particular remedy for this wear unless one drives more slowly in the hot weather. If speed is necessary, the motorist should remember that faster wear is the natural result.

Personal Bias

I realize that in the matter of this sort every man is inclined to look at the question from his own personal standpoint. In the course of his sermon a preacher once asked the question: "In time of trial, what brings us the greatest comfort?" "An acquittal," shouted a low-brow who should never have been admitted by the usher.

Use Your Head

Mrs. McTavish ran into the house in great excitement crying, "John, there's a cow in the garden." "Dinna stand there wasting valuable time," replied John, "go back to the garden and milk it, and then chase her down the road."

Miss Louise Pierce and Lois Dyer Are Wed in Navasota Ceremony

Mrs. C. W. Bradbury was a member of the wedding party of Miss Louise Pierce and Lois Dyer in Navasota last week. The following account of the wedding appeared in the Houston Post-Dispatch:

Miss Louise Pierce and Lois Dyer were married at the First Baptist church with Rev. W. N. Purcell performing the ceremony. A program of wedding music was given by Mrs. R. F. Foster, pianist. Mrs. C. W. Bradbury, violinist of Cameron; Miss Margaret Sangster, vocal soloist, and Loran Pierce, brother of the bride, tenor. The altar space was banked with ferns and artistic grouping of tall floor baskets filled with pick radiance roses and ferns lent a pleasant color note. Festoons of ivy linked the clusters of light globes and from the central cluster was depended a shower of roses and ferns. From amidst the ferns gleamed white candles in silver candelabra. The bride, who is the eldest daughter of Mr. and Mrs. L. S. Pierce, wore a charming ensemble of royal blue crepe, with blouse and hat accessories in harmonizing shade. Her bouquet was valley lilies and pink radiance roses. She was given in marriage by her father.

Attendants were Mrs. L. A. Little of Lufkin, matron of honor, in pink georgette and cream lace; Miss Ethelyn Barry, maid, who wore a pink ensemble with short coat in floral print; little Miss Gloria Mae McGontry, flower girl, in dainty frock of pink organdy with pink hat, and Marion Pierce, small brother of the bride, in white suit. Bouquets were of ferns and pink roses in colonial arrangement. Dewey Hamblin served as best man; Earl Dyer, brother of the groom, groomsmen; ushers were Onis Dyer and J. L. Pierce, brothers of groom and bride, respectively. Immediately following the ceremony Mr. and Mrs. Dyer departed via automobile for Houston and New Orleans for a wedding trip after which they will be at home in Stoneham.

Commencement For Bible School Here

Commencement exercises for the Daily Vacation Bible School in session at the Baptist church from June 24 to July 5, were held Friday evening in the church auditorium, which was attractively decorated with baskets of shasta daisies.

The general program was opened with a procession played by Miss Cornelia Gunn. This was followed by a violin solo by Mrs. C. W. Bradbury, and then the departments in unison gave the salutes to the flags, the pledges, and sang some songs. Each department gave a short demonstration, the Intermediates giving songs and scriptures, the Beginners songs and verses and a vocal solo by Joe Casey, the Primaries songs and a story by Bobbie Casey, and the Juniors songs and readings by John Martin and John S. Burns. The concluding number on the program was a missionary playlet by the Intermediate Department.

Following the program, the hand work which had been made during the school was on display in the Sunday School Annex.

The Essex Car

Is only one of the many desirable things we have in stock. It is the best of its kind, of course in our opinion. Equally as good in its way is the spirit of courtesy we put behind it, the maintenance system we provide for all its owners, the personal interest we take in each and every one of them, the conscientious effort we make to do things right and earn our customers friendship.

The Essex car is a great machine and deserves that kind of backing. But the credit for that goes to the Essex factory. We could not build it here if we wanted to but we can build a business atmosphere to match it in quality, and we work days and nights to accomplish that purpose.

The Essex owner is the judge of our success. Ask him about the spirit of our business.

Panhandle Wheat Crop

Much complaint has been made that the railroads have been negligent in preparing to handle the record wheat crop in the Panhandle. The crop is estimated at 37,500,000 bushels. Storage facilities are very limited and the crop has to be rushed to market. Wheat growers and Chambers of Commerce have appealed to the railroads and Railroad Commission for relief. The towns of Pampa, Tulia, Panhandle, Spearman and Perryton each will need more than 1000 cars to handle their crops, and many other places will require from 100 to 1000 cars to avoid losses. The railroads claim they are doing all they can to handle a record crop and are apporportioning empties to the various places as rapidly as possible. When Texas has a bumper crop of grain both the man and transportation power of the state are put to the severest test.

Berry Canners Closed

An other kind of complaint comes from Lindale, Smith County. The berry canning factories have had to close because of the slow sale of canned blackberries and lack of storage room. The luscious East Texas berries are being left to spoil in the fields although most of the people of the world are having to do without berries. There is a need for immediate farm relief to keep the berry growers from suffering. The lack of a market is charged to the jobbers. Instead of buying on contract as heretofore they are buying in the open market and only as the berries are needed.

While it is too late to remedy conditions this season, the berry growers will be forced to some kind of an organization and capitalization to store and hold the canned product until it is needed for consumption.

Doubling Generator Power

The announcement that the West Texas Utilities Co., is more than doubling its Concho station near San Angelo shows something of the development of that part of Texas. The best evidence of the growth of Texas and its prospects for further growth is shown in the immense investment of capital in power plants throughout the state. Capital is ever cautious and while it goes somewhat ahead of immediate needs, does not spend money in plants unless careful surveys show that profitable returns may be expected.

Cars and Crime

Much of the crime of the present is due to the facilities for rapidly getting away from the place of the crime. Laws are being changed to meet the new conditions. Formerly sheep, hog and chicken thefts were rare and the thief seldom stole more than enough for his immediate use. Since the advent of motor cars, truck loads of farm products or animals are stolen at a time and rushed a hundred or

two miles to market overnight. Sheep and goat raisers have sustained such heavy losses in Texas the past few years that they have organized for vigorously prosecuting the thieves and putting them where they must stop wholesale pilfering.

Uneducated Master Farmer

That the lack of education may handicap but cannot thwart a man of the right kind of courage is shown in the case of a young county farmer, who was never inside a school building until he was elected a school trustee, but who has received more than 200 awards and blue ribbons in the last five years on live stock and agricultural products grown by him. Had he received a modern education, with all its advantages, there is no estimating what this farmer might have accomplished.

De Luxe Tourist Camp

Midland has found catering to the best class of tourists so profitable that a \$100,000 tourist camp has been constructed and opened for travelers. It contains 37 apartments, besides quarters for chauffeurs and servants, and has all the modern conveniences that any tourist, however, accustomed to luxuries, might want. The owners believe that many tourists do not want to stop in hotels, but are willing to pay for the best accommodations to be found in tourist camps.

Farming Methods Change

Readers of Texas newspapers can not fail to be impressed with the fact that farming is undergoing a great change in every part of the state. The most notable change is in the increased interest in dairying and poultry raising. While this is especially true of the small farm operations, many of the large farms are being converted into dairy farms, the tenants contracting to care for certain numbers of dairy cattle, in addition to their crops of cotton, corn and other farm products. This branch of farming has been made possible and profitable by good roads, milk routes and milk products plants located at convenient centers.

Singing Convention

Singing Conventions appear to rival Fourth of July Celebrations in most parts of Texas. In fact most Fourth of July gatherings have lost the old time patriotic interest, and

flag oratory has almost become obsolete. The people like programs in which they can have more personal participation than sleeping on a hot day on an uncomfortable seat through a long speech from some one who is laying plans for securing public office for himself. Singing conventions furnish a fine means of working off surplus energy at a picnic. Although East Texas still leads in the number of such song fests and in the enthusiasm with which the old songs are sung, all-day song festivals are popular all over Texas and draw large crowds. At many of these gatherings which are in fact community picnics the old shaped-note music books are still used.

Cotton Dress Show

The home demonstration clubs of Van Zandt county recently gave a cotton dress show at which there were more than 80 entries from the different clubs of the county. Both the married women and the girls took pride in showing their handiwork in the making of bright cotton dresses and their good taste in wearing them.

Community Fairs

The community fair season has opened in Texas. There is something about the small community fair that appeals to most people. Perhaps it is the lack of commercialism, perhaps it is because it affords an opportunity for the people who know each other well to get together and compare experiences in matters in which all are interested. The county that fails to encourage community fairs, even though it may have a successful county fair, is missing one of its best means of profitably entertaining its people. It isn't size, but interest that makes a fair of any kind pay for the time and effort put into it.

Onion Prices Good

Farmers around Farmersville decided some time ago that the Winter Garden District of Texas is not the only part of the State in which money can be made with onions. They knew that they must plant enough acreage to attract buyers, and that onions grown in their section would not be in competition with those of the Laredo country. Much of the crop of this year has sold at from \$1.75 to \$2.00 a crate and the yield has averaged around 100 crates to the acre. It doesn't require much figuring to

guess that the onion growers at Farmersville are pleased with the results of their efforts.

Hon. E. A. Camp Elected Mayor of City of Rockdale

E. A. Camp, nominated by friends without his knowledge, was elected mayor of Rockdale at the city election Tuesday, a total of 131 votes being polled, Camp, as the only nominee, received all the votes, his election seemingly meeting with the universal approval of the citizens of Rockdale. The election was called two weeks ago following the announcement of resignation by Mayor W. E. Gaither who is moving away from Rockdale.

In E. A. Camp the citizens of Rockdale believe they have found a man who is qualified to fill the vacancy left by Gaither, and continue the good work that was inaugurated under his administration. No further nominations were made after friends of Camp announced that he had been drafted for the mayor's chair.—Rockdale Reporter.

Winner Announced In Name Contest

Miss Ethel Morgan of McAllen, Texas has been judged the winner of the five dollar prize offered as the reward for a name for Cameron's newest amusement park. This name was selected from some four hundred names that were submitted. The following letter explains the new name:

McAllen, Texas, June 22, 1929.
Mr. Elwood Cammer,
Cameron, Texas,
Dear Sir:

In regards to your notice in the Cameron Herald as to a name for your new park that you have been recently constructing, I would suggest "Skeezix." Skeezix, is a name that is easily remembered, also it is a name that the wind could carry far and wide.

This name might not appeal to you, however I hope it does. A neatly printed sign, "Skeezix Fair Ground" and "Dance at the Skeezix," or "Skeezix, for music, dancing and Enjoyable evening," would be a very attractive advertisement indeed.

Skeezix, you know, in the comic section of several papers is always young, pictured as youth in it's happiest period of life. So why not let your play ground of Cameron, Texas be advertised as the "Land of Youth?"

Thanking you for your time spent in reading my letter and hoping to hear from you in regards to my suggested name.

I am a regular summer visitor in and around Cameron country, my father's relatives are natives of Milano, and my aunt and uncle live in Gause, Mr. and Mrs. W. R. Webb. I have many other relatives however.

When I visit Milano and the neighboring towns and cities around there I hope to visit the new pleasure park also I wish very, very much to "See my name swinging way up high."

Thanking you again, I remain,
Sincerely yours,
Miss Ethel Morgan,
McAllen, Texas,

The father of Mrs. Ralston, James L. Smith, was head of the college, having moved there in 1836 from Cameron. He also taught school in Cameron from 1861 to 1863. Mr. and Mrs. Ralston are looking forward with interest to meeting old friends and the large company of Texans who will gather there.

J. A. HOSCH IS SHOT TO DEATH HERE SATURDAY

FRED MATHIS OF YARRELTON
HELD IN FATAL SHOOTING
NEAR SANTA FE

J. A. Hosch, 51, prominent farmer in the Elm Ridge community west of Cameron was shot to death about six o'clock Saturday afternoon, July 6 on the street near the Matocha Hardware Company in Santa Fe town.

Fred Mathis of Yarrelton, surrendered to Deputy Sheriff Will Vaughn at the office of Sheriff Blaylock shortly after the shooting, turning over to the officer a 38 calibre pistol from which two empty shells were taken.

According to witnesses Mr. Hosch was standing on the porch in the front of the store when Mathis began shooting from the opposite side of a motor truck parked near the entrance. Hosch ran from the scene and fell mortally wounded at the rear of the Santa Fe Market. An ambulance of the Coleman-Eplen undertaking company took Hosch immediately to the hospital but he died on the way to the sanitarium.

An examining trial was scheduled for Tuesday but the grand jury has been called into session for Monday for next week to consider the case and no trial has yet been held.

No statement has been made by Mathis. On entering the office of the sheriff he told Deputy Vaughn that he had killed a man. He was taken to the jail.

The trouble is said to have originated some weeks ago when Hosch shot and wounded Mathis.

The shooting occurred on a busy downtown street and a number of people witnessed the killing. Hosch was shot twice, one bullet entering the right breast and penetrating the base of the heart. The other striking in the left forearm breaking a bone.

Funeral services for J. A. Hosch who was killed Saturday afternoon, were held from the Catholic church Monday morning at nine o'clock, with Rev. Father Apel officiating. Interment was in the Catholic cemetery. Coleman and Eplen having charge of arrangements. The body of Mr. Hosch, who lived in a rural community near Cameron, rested at the home of his sister, Mrs. Emil Boedeker, from Saturday night until Monday.

Pall bearers were Joe Parna, Ben. Boedeker, Henry Sheffield, Richard Ehler, Ralph Michalka and B. J. Mattocha.

RESOLUTION COMMENDS SERVICE OF PEYTON

CHAMBER OF COMMERCE LAUDS
RETIRING PRESIDENT WHO
LEAVES FOR TEMPLE

Praise for the service of C. S. Peyton, president of the Cameron Chamber of Commerce is expressed in a resolution prepared by the committee named by President F. E. Jackson. Mr. Peyton has resigned to move to Temple to take over the management of the Southwestern Bell Telephone exchange there. The following is a copy of the resolution:

Whereas, C. S. Peyton, president of the Cameron Chamber of Commerce, has tendered his resignation, being summoned to a place of larger service and opportunity with the Southwestern Bell Telephone Company at Temple, and,

Whereas, the resignation of Mr. Peyton from this responsible place of civic leadership, is a distinct loss to the city of Cameron, and,

Whereas, the membership of the Chamber of Commerce, desires to commend him for his service as president and to express appreciation for the able leadership he has given in this place, therefore be it resolved: First. That we express to Mr. Peyton our sincere thanks for his work as president during the months he has served in this place of leadership, bringing an active and progressive program of development for Cameron.

Second. That while we regret to lose his leadership, we rejoice in the fact that he has been called to a place of larger service with his company, and we recommend him to the citizenship of Temple who will profit by his residence there, bringing to the business and civic life of that community a progressive mind and a personality of worth and inspiration.

Third. That we express our appreciation for his life as a citizen of Cameron covering a period years during which time he has been active in

The Supreme Court Amendment

By JUDGE W. G. GILLIS

The Supreme Court Amendment to the Texas Constitution deserves the careful consideration of every voter in Texas.

No citizen wants to create useless judge ships and no citizen wishes to add to the expense of government unless some adequate return in the way of public service may be expected by reason of the additional outlay. But every citizen wants to expedite the course of justice and make our Supreme Court able to meet the demands made upon it.

Our Supreme Court of three members was created by the Constitution of 1876. John H. Reagan and Buck Walton were members of that Convention and presented a vigorous report to the Convention urging that five members be provided for to constitute the Supreme Court. These men were lawyers and statesmen of whom Texas is justly proud. They knew that even for that day and time three men could not adequately transact the business of the Supreme Court of a great empire such as Texas.

Experience has shown that these far seeing men were right. In 1879 only 3 years after the adoption of the Constitution, it was found necessary to create a Commission of Appeals to aid the Supreme Court in spite of the fact that the Court of Appeals which then handled criminal matters, also had some civil jurisdiction. This state of affairs continued until 1892 when the courts of Civil Appeals were created. At first we had three of these Courts of Civil Appeals. From time to time Legislature created additional Courts of Civil Appeals until now we have 11 of them. Yet, because an appeal could be taken from these Courts to the Supreme Court, our Supreme Court became so badly behind with its work, that in 1918 a Commission of Appeals to aid the Supreme Court was created and has been at work continuously since that time. This does not give adequate relief because the Commission does not have power to preme Court and all opinions prepar-

act except upon approval of the Sued by the Commission must be passed upon by the Supreme Court.

In effect we have 9 members now acting as a Court of last resort, but 6 of the members (Commissioners) are so restricted and handicapped that they cannot render efficient service because their work must be approved by the other three.

Under the Constitution, as it now stands, the Supreme Court of three members must transact its work in 9 months. A three months vacation is made mandatory by the Constitution itself.

The proposed Amendment provides for 9 members and makes the session of the court continuous. Certainly more work and more efficient work can be accomplished if the Amendment is adopted.

When the present Constitution was adopted creating the Supreme Court as now constituted, there were 450,000 people in Texas. Now there are 5,000,000. Then there were no cities of Texas. Now we have 4 cities of around 200,000 each, and hundreds of towns of 5000 and more population. Then the West was wild and uninhabited. Now it is one of our populous and wealthy sections. Then the occupations were agriculture and stock raising. Now practically every industry found in this great country of ours is represented in Texas.

Only four states in the Union now have as few as three Supreme Court Judges—Texas, Arizona, Nevada and Wyoming. All the other states have from 5 to 9 judges.

Nevada has only 57,000 people, Arizona 200,000 and Wyoming 400,000 while Texas has 5,000,000.

Considering the wealth, size and population of Texas and the amount of litigation, she ought to have, a Supreme Court large enough to efficiently function.

A vote for the amendment is a vote for a simple procedure and a more efficient and expeditious administration of justice. It is hoped therefore that the citizens of Milam County will give the amendment a favorable and generous support.

Lesson for July 14

EZEKIEL TEACHES PERSONAL RESPONSIBILITY

LESSON TEXT—Ezekiel 33:1-7.
GOLDEN TEXT—Every one of us shall give an account of himself to God.

PRIMARY TOPIC—Ezekiel's Message of Warning.
JUNIOR TOPIC—Ezekiel's Message of Warning.

INTERMEDIATE AND SENIOR TOPIC—How God Takes Note of My Life.
YOUNG PEOPLE AND ADULT TOPIC—Individual Accountability to God.

I. Ezekiel's Responsibility (vv. 1-7).

The commission of the prophet is now renewed. Hitherto his utterances were mainly of a threatening character, having as their objective the turning of the people from their wicked ways. They refused to heed the prophet's words, the result of which was the coming of God's judgment upon them. In fact, completely and the destruction of Jerusalem. When it became clear that the people would not heed God's warnings through the prophet, the prophet was to be silent. This tragic situation was portrayed through the death of Ezekiel's wife. As awful as this blow was, he was to stand firm weeping, showing that even natural sorrow was not to be experienced at the time of God's awful judgment.

After the renewal of the prophet's commission his messages were mainly consolatory. His responsibility is set forth under the figure of a watchman. God gave him this position. Every minister and Sunday School teacher is a watchman. Indeed, upon every believer has been imposed certain responsibilities. Two things are required of a watchman.

1. To hear the word at God's mouth (v. 7).

The source of the message of every minister and Sunday school teacher is God's Holy Word. As the prophet did not originate his message but received it at God's mouth, so should it be with every minister.

2. To sound the warning (v. 7).

After hearing God's message he was to proclaim it to the people. The watchman's duty is both to hear and to speak. The people are to be warned of the impending danger. Failure to sound the alarm makes the watchman guilty of the blood of the sinner (v. 8). After the warning the sinner carries his own guilt (v. 9).

II. God's Attitude Toward the Sinner (vv. 10, 11).

God had declared in His word that unfaithfulness on the part of His people would cause them to "perish among the heathen," to "pine away in their iniquity" (Lev. 26:38, 39).

In view of this pronouncement, some were disposed to say that their case was hopeless. To meet this attitude of despair, the prophet assured them that God had no pleasure in the death of the wicked, but that his sincere desire was for the wicked to turn from his way and live. Regardless of what their past had been he assured them that the future was bright, but God's command and plea is, "Turn ye from your evil ways, for why will ye die? O house of Israel!"

III. The Sinner's Personal Responsibility (vv. 12-20).

God has created the members of the race as volitional beings, possessing freedom of choice. They have moral discernment, enabling them to distinguish between right and wrong. The following principles govern the sinner and the watchman:

1. Past righteousness will not avail for present sins (v. 12).

When a righteous man turns to iniquity, his past seeming righteousness will be of no avail.

2. Past sins do not make impossible present acceptance with God (vv. 12-14).

By virtue of the law of habit, every sinful act makes it harder for the sinner to repent, but God's mercy and enabling grace are such that if the sinner repents God will restore.

3. Restitution required (vv. 15, 16).

The proof of penitence is that so far as possible the sinner makes amends for wrongs done. There is no merit in the act of restitution, but such act helps the individual to overcome his besetting sin.

4. God's ways are equal (vv. 17, 20).

God holds man responsible for his own deeds. The child is not condemned because of the deeds of his father. This does not do away with the law of heredity. Regardless of what one's past life has been, God's grace in Jesus Christ blots out his record and he stands accepted in the Beloved.

On the Job

While Moses was caring for the sheep God's great commission came to him. If God has any great thing for us to do, we need not fear that He will miss us because we are busy with our common tasks.

Belief in Jesus Christ

The condition of salvation is that kind of belief in Jesus Christ which acknowledges His deity in repentance for the past and in amendments of life for the future.—L. L. Noble.

YOUNG FRIEND MAKE THIS SALARY YOURS

Here are facts that will encourage you. Our written employment records of the Dallas office, showing the student's name and firm placed with, show they have averaged placing two students for every school day thus far this year. We urge you to enter school right away; we know we will need you to send out on calls that we will be receiving in the near future. Make this salary yours.

You will not only find your stay in our college pleasant but you will get the thrill of your life when you graduate and are sent out on a good position. In other words, you have nothing to lose and all to gain by making your arrangements to enter school now. Upon the advice of an aunt I started taking Dr. Pierce's Favorite Prescription and the Golden Medical Discovery and thru their use my health was restored. I developed into womanhood without further trouble."

Evolution of women's styles: neckless, backless, shameless.

It is sometimes easier to give in than to keep up the argument.

Nowadays you can act as silly as you please on the street and people will merely wonder where the cameras are.

What has become of all the cotton-topped silk stockings that were manufactured on the theory that no one would be the wiser?

Here's an entry for the lost of definitions of a pessimist—one who carried salmon and sardines in his lunch kit on fishing trips.

Ceredo Lady Tells How She Was Unable To Find Anything To Relieve Them Until She Took Cardui.

Ceredo, W. Va.—In telling how she was benefited by taking Cardui, Mrs. Perle Yelkey, of this place, says:

"At one time, I had a very serious spell which left me weak. At times, I would suffer such intense pains across my back and in my side that I could hardly stand it."

"I endured this over and over again. Every time the pains were worse than before."

"I was in despair because nothing helped me. I tried several remedies, but I continued to suffer."

"One day, I read about Cardui. Other women told how they had gotten strong and well after taking it. I have often been thankful for that day, for after I had taken Cardui for awhile, I felt like a different human being."

"It did not seem possible, but I did not suffer the old, torturing pains, and I really felt well. I can heartily recommend Cardui, for I know how much I improved after I took it. Since then, I have taken it several times when I have needed a tonic, and I have always been benefited. It is a wonderful help."

Ford Day On Beach
At Galveston July
21 With Program

Every Lizzie is to have her day. Therefore, July 21 will be a great day at Galveston Beach. The Galveston Beach Association has planned to pay signal honor to the great Ford family and accordingly, a general invitation has been extended to every Ford owner in the southwest to load up the family and make the pilgrimage to the seashore where an elaborate program of entertainment and many valuable prizes await them.

Hubert Hefley, local Ford dealer has received full information on the big event and is passing it along to all Ford owners in this locality. Judging by the interest being shown, Cameron family be represented at the Ford family reunion.

According to information received here, the Galveston committee will meet all incoming Fords as they cross causeway leading into the city and present them with a free ticket entitling them to participate in the day's program and prize distribution. More than a score of valuable prizes are announced including a brand new Ford to some fortunate visitor. No Galveston owned car is eligible to participate.

With popular priced hotels, de luxe tourist camps and the thirty miles of free camping sites on east and west beaches, Galveston can take care of several thousand more visitors than ever before and 'Ford Day' is expected to attract one of the largest crowds of the season.

Henry Ford, the man who put America on rubber tires, has been especially invited to attend.

Performance Counts! Watch the new Ford on the hills, in traffic, and on the open road, and you will know that it is a truly great car

THE minute you see the new Ford car you will be delighted with its low, smart lines and the artistic color combinations. There, you will say, is a truly modern car.

But a still greater thrill awaits you when you slip into the roomy seat behind the wheel and start away for your first ride.

You will like the feeling of power that the new Ford gives you—the comfortable, prideful feeling that comes from having a car worthy of any occasion and equal to every emergency.

You will like the flexibility and safety of the new Ford car as you weave in and out of traffic—its flashing pick-up as the light turns green and the sign says "Go." You will like its smooth, quiet steadiness on the open road where you can lazy along according to your mood, or do 55 and even 65 miles an hour if you desire. The new Ford has unusual speed—no doubt of that!

There are still other reasons why the new Ford car is a great car to own and drive. Three important reasons that mean a great deal to you: reliability—economy—long life.

The new Ford is made to stand up under thousands of miles of steady running over all kinds of roads, and save you many dollars in repair bills.

Come in and see this great new car. Inspect it carefully—part by part. Then know the thrill of driving it. By its performance you will realize that there is nothing quite like it anywhere in design, quality and price.

BURKHEAD WELL NEAR THORNDALE IS WATCHED

CHAPMAN GETS LEASE JOINING 'DISCOVERY' WELL IN FIELD THERE

The Burkhead et al well on the Weigmann tract started drilling after having core of the Buda Limestone passed on by Dr. Whitney, head of the geological department of the University of Texas, who expressed great faith in its outcome, stating he had previously recommended this location to parties after carefully working out the immediate district in Milam county.

Mr. Burkhead advises he has secured all material necessary to care for the encountering of a gusher either in the Buda, Georgetown or the Edwards Limestone.

This well is being watched with great interest by oil men from all parts of the Texas oil belt as the pecan gap formation was picked up at approximately 917 feet showing that the well was located topographically on the down throw side of the fault and the Austin Chalk was found on the up throw side which resulted in gas and a show of oil coming up. At 1666 feet the Eagleford Shale was found but pinched out after ten feet and the Buda entered into some two hundred feet higher up than found in any well in the entire field. The well was shut down for several days in order that Mr. Burkhead might have the core of the Buda passed on by Mr. Whitney of the University of Texas, who was greatly pleased and expressed his opinion as to its final outcome most favorably. Within another hundred feet the owners of this well expect to bring in the actual producing gusher of Milam County below the Austin Chalk either in the Buda, Georgetown or the Edwards Limestone.

Johnson Well To Be Put On Pump

E. L. Chapman has his No. 3 derrick practically completed south and east of the discovery Michalk and Clark well and will probably spud in at once. The Chapman No. 2 located on the Knight land further south and east of the Michalk well is drilling in the Austin Chalk. Chapman No. 1 east of the discovery Michalk and Clark well has been plugged and abandoned, after drilling some distance into the Edwards limestone. Mr. Chapman has been fortunate in the securing of ten acres immediately surrounding the discovery well and will probably clean out and place it on the pump endeavoring to make a commercial producer.

Elliott on the Moore farm north of the Michalk well, is making good progress in work and it is reported that they are within a few feet of the depth in the Buda Lime where oil was discovered on the Johnson farm by Michalk and Clark.

Hoffer Spuds In

Hoffer Oil Corporation south of the Thrall gusher field, has spudded his well and it is advised they will continue drilling with all speed possible. This location is in line with the Burkhead well, which is located northeast and is believed to be on the same faulting.—Thorndale Champion.

Distant Hills Appear Near

We have all had the experience while out riding of approaching a hill from a distance. The hill looks very steep and difficult. We find often if we go ahead that as we approach the hill it seems less steep and if we keep on climbing, the first thing we know we are on top. It hasn't been nearly the task that we thought it would be.

Many difficulties that lie in the way of progress of a town appear from a distance to be insurmountable. As we look forward at the things that lie in the path of Cameron's progress we are prone to believe that it is futile to attempt to overcome them. They seem too large and difficult for our small means.

But like the hill in the road if we will resolutely push forward and look only at the object to be attained the difficulties will seem less and less formidable. The way will open up if we will but persist and if we gather together all of our energy and resource and use it for the building up of our home we can accomplish wonders for it and for every business in it.

Somewhere someone has said, "If you don't give up too soon, you're bound to get what you go after, no matter if the whole world says you can't do it."

Chicago Minister Denounces Cannon for Stock Dealing

Chicago, July 7.—Bishop James Cannon Jr., of the Methodist Episcopal church, South, was tonight declared an unworthy leader by Rev. John Thompson, at the First Methodist church here.

The latter asserted that the bishop's recently disclosed bucket-shop speculations would serve to class the southern religious leader with the exponents of modern American paganism, stating:

"Bishop Cannon has brought reproach to the church of Christ and the cause so dear to him and to all lovers of temperance and prohibition. He has given the enemy a good chance to scoff at all of us. The church of which he is a bishop cannot afford to ignore this."

The bishop's bucket-shop speculations raise the whole question of whether Jesus' way of life and the New Testament standards should be taken as seriously relation to covetousness and to money matters in general as to prohibition and other pet matters on the lips of present day reformers," Dr. Thompson added.

AN ARMY of 65,000

Loyal, Aggressive Employees

AT YOUR SERVICE

THROUGHOUT the history of the world, happiness and progress have been based on Service. No institution is our present-day civilization plays so vitally important a part as do our transportation agencies—and our railroads still are, and must continue to be, by far the most important transportation factor.

That is the reason railroad men and women, generally, are such wonderfully fine people—because they have the knowledge that they are engaged in providing a service that is both necessary and very much worth while. In no other occupation is there greater opportunity for genuine service.

Therefore, it must of necessity follow, that the most successful and progressive railroads are manned by employees who are most loyal, aggressive and progressive. It also follows that those railroads whose employees possess the finest esprit de corps, the highest morale, the greatest loyalty and aggressiveness, automatically become the most progressive and successful.

Missouri Pacific Lines and Missouri Pacific employees both are fortunate. The entire system is manned by one of the finest organizations in the history of the world—and the Missouri Pacific army of 65,000 employees is following the standard of a successful and progressive American institution.

Result—the public benefits almost beyond measure. Every individual in the organization is fully aware of the importance of team work and there are few armies—even military organizations—that can exhibit the singleness of purpose, the effectiveness of concerted attack, the unanimous joy in achievement that motivates the Missouri Pacific Lines army.

Shippers and travelers who have discovered these things have benefited and profited. Some have discovered them accidentally. Others have purposely sought to test out the Missouri Pacific Army. Without exception the army has been found ready and willing to attack the largest or the smallest problem of the shipper and the traveler in order that the Missouri Pacific Lines might be of greatest possible service and so live up to the motto that is emblazoned on its banners and written indelibly in the hearts of all—A Service Institution.

The Missouri Pacific Lines Army is proud of its railroad and the railroad is proud of its army. Both seek greater opportunities to be of service.

I solicit your co-operation and assistance.

M. B. Harrison

The Essex Car

Is only one of the many desirable things we have in stock. It is the best of its kind, of course in our opinion. Equally as good in its way is the spirit of courtesy we put behind it, the maintenance system we provide for all its owners, the personal interest we take in each and every one of them, the conscientious effort we make to do things right and earn our customers friendship.

The Essex car is a great machine and deserves that kind of backing. But the credit for that goes to the Essex factory. We could not build it here if we wanted to but we can build a business atmosphere to match it in quality, and we work days and nights to accomplish that purpose.

The Essex owner is the judge of our success. Ask him about the spirit of our business.

BLIND MEN

In the 'Buddhist Philosophy of Life' you will find this sentence:

"There was a man born blind and he said: 'I do not believe in the world of light and color. There is no sun, no moon, no stars. No one has ever seen these things.'"

All about us there are men who say: There is no such thing as love. There is no such thing as loyalty. There is no such thing as unselfishness. There is no such thing as virtue. All those things are but dreams and visions.

Why do they say such things? You think that perhaps they do not dream what they say. You think they are just talking for effect or to raise an argument.

The case is sadder than that. They give voice to this belief because they are men who are blind. Perhaps they were born as blind men and never had a decent chance to get their eyes open. Perhaps they have become blind thru habits of thought and action.

At any rate they are like the man in the Buddhist book. They are blind and they say that there is no love, no loyalty, no virtue.

They are men to be pitied because they are spiritual cripples.

They have never experienced the finer emotions of life in their own darkened lives. They have not had these emotions often enough and strong enough to believe in their reality.

You who read this may never look out of your window in the night. Nevertheless the stars are very beautiful. Be sure of that.

The next time you hear a man or woman deny life's beauties, its spiritual achievements, its satisfactions, its deep and worthwhile experiences do not be misled.

Life is all right. Folks, for the most part, are all right. But you are talking to a blind man.

Have a look at yourself, too, and your own emotions and conclusions. When you are discouraged, when you find yourself cynical, when you doubt the eternal verities, make sure that you are not becoming a blind man.

For the blind man in the story said that there were no such things. We acquaint ourselves with the like of him and we find he has no eyes to see.

How about ourselves? Are you a blind man? Am I?

May we all have enough love and loyalty and unselfishness in our own lives to enable us to recognize it in others?

Even in sowing our wild oats many of us expect someone else to do the digging for us.

THE UNPOPULAR PEDDLER

The summer complaint with which the housewife suffers most is the complaint that her mornings and afternoons are spent listening to or trying to shut the door against house-to-house canvassers and itinerant peddlers. At this season of the year she has much in common with the doorman and purchasing agent.

Canvassers and peddlers all come under the category of pest, but they can be divided between the deserving and their wares can be divided between the good and the bad.

If there were not so many of them one would willingly give time and money to the young men and women who, through canvassing, partially or wholly finance their next year's schooling. And then the frauds cannot always be distinguished from the bona fide.

But it is against the peddler that the housewife directs her complaint and he is obnoxious and excessively insistent and is not above trickery and dishonesty.

Patrons of the peddler often injure two in benefitting one. They take away from their own merchants, who spend their profits at home, business that is rightfully theirs, giving it to a fly-by-night stranger. And not infrequently peddlers' bargains prove to be gold bricks.

BEAUTY A COMMUNITY ASSET

There are three phases of community development—commercial, industrial and residential. The normal community directs its development through all three lines and the third suffices for the suburban colony, but no center of population can afford to neglect that third department of community growth.

Because the city, town or village is primarily a place in which man can find comfort and happiness, that community fails to accomplish its first purpose when it neglects the residential for the industrial and commercial.

Does Cameron appreciate the value of attractive homes and beautiful residential sections as a community asset, and is it taking the fullest advantage of its possibilities in this direction? It should be a place of which the fullest advantage of its possibilities in this direction? It should be a place of which the tourist will say, 'I would like to live here.' Is it?

Man, in common with the lower animals, builds his home where he finds his food, it is true, but because he is a 'higher animal' he discriminates between two places equally provident in mere sustenance. So the commu-

nity that would attract homemakers must have more to offer than just employment.

One way to build Cameron in size and prosperity is to strengthen its claim to the titles of 'the city beautiful' and the 'city of homes.'

LITTLE COMPETITION

One of America's most successful men, out of cynicism or hard experience, has said that only one man in 50 renders intelligent service. Another industrial leader has even less faith in man as a beast of burden for he contends that there are 99 who lack intelligent enthusiasm and a sincere desire to serve, to every one that is eager and ambitious, conscientious and courageous.

If it is true that the average worker is a clock-watcher, duty-dodger and is otherwise inefficient incompetent, that knowledge is worth money to men and women with that inherent or acquired genius for doing good work. It is their cue to put everything into a field in which little competition will be encountered.

And what of the ninety and nine? They fool nobody, unless it be themselves. They are not 'getting away with murder.' They hurt their employer and their fellow workers, but they hurt themselves more.

A man must make good or make room—go forward or drop back. There is no resting on your oars in the swift stream of present-day enterprise and human endeavor.

Failures are born, not made by adversity, environment and lack of opportunity. But some people are a long time learning that they were not born to be failures.

The sexes will not be equal until the prospective bride is asked if she can support the bridegroom as well as dad has been doing it.

Mussolini, according to the fascist code, is always right. This would be fine if there were enough fascist codes to go around.

METHODIST CHURCH

Every thing went fine last Sunday. The Sunday School attendance showed a nice increase over the previous Sunday. The Leagues were well attended. The crowds at the hours of worship were encouraging.

The Sunday School will meet as usual at 9:45 and the Leagues will meet at 7:00.

The pastor will preach at eleven. Everybody should come to the morning worship as there will be no worship at night.

Mrs. A. A. Lee, wife of the new band master in Cameron will render a solo at the morning service and Mr. Lee will play a violin obligato to the solo. This will be their first appearance at a church service in Cameron and the public is invited to hear them.

Miss Alice O'Neal Is Honor Guest Tuesday At Bridge Party

Miss Alice O'Neal of Atlanta, Texas, was honored Tuesday morning, when Mrs. Katie McCall George entertained with three tables of bridge at the home of her parents, Mr. and Mrs. E. J. McCall. Nasturtiums and zinnias furnished floral adornment for the living room, where the tables were placed.

Mrs. Gene Longmore of Rosebud made high score and Mrs. Annie Taylor, also of Rosebud, was low. They were awarded a novelty fruit bowl and a set of bridge tallies and pads. Guest prize was a lovely chiffon handkerchief. Table favors, which were boxes of body powder, were cut by Miss Dallis Young, Mrs. Eugene Green and Mrs. Penn Wolf.

The hostess served a salad and a dessert course on trays which were centered with baskets of nasturtiums and daisies.

Out of town guests other than the honoree were Mesdames Gene Longmore, Earl Blasienz, Annie Taylor and Judge Glass, all of Rosebud.

Evangeline Chatmas Guest of Gladys Davis At Forty-Two Party

Naming as honoree her guest, Miss Evangeline Chatmas of Marlin, Miss Gladys Davis entertained with a handkerchief party Monday afternoon at the home of her parents, Mr. and Mrs. Judd Davis, with games of 42 furnishing entertainment.

Eighty-four favors were linen handkerchiefs; high score award, which fell to Miss Nancy Rae Slocomb, was a large chiffon handkerchief; low score, which was won by Miss Dorothy Lee Lane of Uvalde, was a small georgette handkerchief, and the guest prize was a dainty linen kerchief.

During the games candy and punch were served, and at the conclusion, the hostess, assisted by her mother Miss Chatmas and Miss Imogene Sapp served ice cream and angel squares.

Those enjoying the hospitality were the honoree, Misses Dorothy Mae Lane of Uvalde, Frances Sharpe, Doris Emily Moore, Helen Blaylock, Euline Slaughter, Lucille Green, Imogene Sapp, Bonnelle Neimast, Nancy Rae Slocomb, Marguerite Ford and the hostess.

Viola Sustek Hostess At Lawn Party Here

Miss Viola Sustek, daughter of Mr. and Mrs. J. A. Sustek, entertained members of the younger set with a lawn party at the home of her parents last Wednesday evening. Zinnias were used for floral decoration on the porch, and two large American flags reminded the guests that it was the eve of July 4.

About thirty guests enjoyed the games and strolls that formed diversions. Punch was served throughout the evening from the porch, and late in the evening brick ice cream and angel squares were passed. Tiny silk American flags were plate favors.

Daughter: "Yes, but daddy, dear a week passes so quickly when you are in love."

Golf Links Hold Out Fame To Cameron Boy Now In Oklahoma

A Cameron boy—W. H. Nabours—is attracting attention on the golf links in Oklahoma. A clipping from the Daily Oklahoman was received this week by The Herald.

Mr. Nabours is a brother of Homer Nabours, county clerk and a cousin of F. S. Lesovsky of Cameron. He was in Cameron in 1924 and 1925 with the Coleman Chevrolet Company and now a resident of Oklahoma City.

The following interesting comment from the sport page of the Daily Oklahoman will be of interest:

What is so rare as a day in June? asked the poet as he wrote of the search of the Holy Grail.

Answer: A Sunday in June that produces two holes in one, two no-hit baseball games in a single contest in Oklahoma City and nine hits in nine times at bat for Buster Chatham of Pueblo's Western league club.

No 300 bowling scores, love-game an dove-set tennis matches, royal flushes or perfect bridge hands were reported, but that fact fails to bring moans from the lips of Robert K. Johnston and W. H. Nabours—Oklahoma City's newest 'cuckoos.'

Number 10 at Lincoln park, a 175-yard par three hole, furnished the scene for Nabour's tee-to-cup shot. He used a brassie. The ball hit in the fairway short of the green and rolled

unwaveringly toward the pin and into the cup. The feat failed to upset Nabours's equilibrium, for he turned in a 42 for the second nine after taking 43 for the first. He was playing with J. H. Beaver and J. R. Rasor.

Johnston, whose offices are in the Colcord building and whose residence is at 1219 West Twentieth street enlisted strategy as a first mate in plunking his ace into the 178-yard seventh hole at Oklahoma City Golf and Country club Sunday. Going into a stiff wind, he used his driver off the tee instead of the customary iron for the par three hole and was rewarded with the sight of the sometimes stubborn little pill rolling into the cup.

BE ON THE SQUARE

With Yourself and Your Purse

When you need Building Material, for any purposes, be square with yourself; don't try to 'kid' yourself into believing 'cheap' lumber will do. It costs as much to work cheap lumber as it does to work good stuff,—in fact your carpenter will tell you he cannot do as much work in a day with cheap materials,—so why, (being square with yourself) let the 'Lure of Low Price'—which indicates low quality, influence you. You do not really save, and you might be sorry.

Our reputation for over thirty-five years for Quality will be sustained, and we will appreciate your business.

MISS BERYL NAYLOR BECOMES BRIDE OF J. H. McCONNELL IN OKLAHOMA CITY CHURCH WEDDING JUNE 20

Simplicity was combined with a cred beauty to make lovely the wedding of Miss Beryl Hall Naylor, daughter of Mr. and Mrs. Howard N. Naylor, 529 1-2 West Eleventh street and Joseph Hilton McConnell of Frederick.

The vows were exchanged Thursday June 20 at 9:30 o'clock in the First Christian church in the presence of a large group of relatives and close friends. Rev. Ernest C. Mobley performed the ceremony. The couple left immediately afterwards for a honeymoon sojourn to Dallas and other points in Texas and will return to Frederick to make their home.

Pink and white gladioli in floor baskets together with palms and ferns formed a pretty but simple setting for the services. Before the entrance of the bride Miss Rose Wylie sang 'I Love You Truly' (Carrie Jacobs-Bond) and 'Because' (d'Hardelot). She was accompanied by Floyd Kimes Russell who played 'The Bridal Chorus' from Lohengrin for the processional, 'At Dawning' softly during the ceremony and Mendelssohn's 'Wedding March' for the recessional.

The bride was dressed in a becoming tailored ensemble of white heavy silk designed with a plain blouse, plaited skirt and jacket trimmed with pearl buttons. She wore a close fitting hat of white felt and accessories in the same color. Her flowers were white roses and valley lilies in an arm bouquet.

Miss Naylor was given in marriage by her father and her only attendant was her sister, Miss Eleanor Naylor, who was maid of honor. Miss Eleanor Naylor wore a pink shantung frock cut on straight lines and white accessories. She carried an arm bouquet

of pink roses. Harry L. McConnell of Frederick was best man for his brother.

For traveling Mrs. McConnell donned a dress of navy blue crepe and suntan accessories.

Mrs. McConnell attended Blackwell high school and received her college education in Oklahoma City University and belonged to the Phi Delta there. She taught the last year in the schools in Blackwell and the year before in Hominy.

Mr. McConnell attended Baylor University in Waco after graduating from the high school at Frederick. He is established in the grocery business in Frederick. Mr. McConnell is the son of Mr. and Mrs. J. E. McConnell of Frederick. They are early day residents of Frederick. Mr. McConnell Sr., being president of the Security National Bank there.

Those who came from out of town to attend the wedding were Mr. and Mrs. J. E. McConnell, Mr. and Mrs. Harry L. McConnell and Robert McConnell, Mrs. John H. Mounts and Miss Ena Bob Mounts, all of Frederick; Miss Gertrude Fey of Blackwell, Mrs. Harry F. Flaner of Ponca City, Dr. and Mrs. G. I. Walker and children, Harmony and Granville, of Hominy; Howard N. Naylor Jr., of Chickasha and Miss Marguerite House of Prague.

Mr. and Mrs. Naylor entertained informally at dinner Wednesday night in their home honoring their daughter and Mr. McConnell. The guests were limited to the bridal party and the two families.—Daily Oklahoman.

The many friends of Mr. and Mrs. Naylor will be interested in the account of the wedding of their daughter.

er. They were residents of Cameron for five years from 1908 to 1913 during which time Mr. Naylor was manager for the Southwestern Bell Telephone Co. He is now state warehouse commissioner for Oklahoma. They have been in that state for five years.

Our admiration for Lindbergh increases. The wedding ceremony was just the type one would expect the Connel and Anne Morrow to have and then this slipping away from the public's morbid curiosity was especially good. Lindbergh is the type of

idol that will live. He holds the public at arms length. The natural desire of the public is to paw over and kiss its idols to satiety. A soon as the public has done this it is through with the victim of its desire and is on the lookout for new victims. The public had its way with Hobson and killed him in a day. Lindbergh keeps it at arms length and as long as he does, he will keep its admiration.

Good Advertising Help the Sales of any Merchant

Pick up any magazine or newspaper today and you will find it filled with advertising. For the most part, the advertising is not new or strange products that have just made their appearance on the market. More often it relates to old and established lines of merchandise that have been known for years.

The manufacturers know by experience that the only way to hold up sales is thru advertising. All sorts of other schemes have been tried but advertising has proven to be the surest and the most reliable.

Advertising may not bring the customers to a store today, but by repeated advertising, a confidence is built up by which the purchasing public comes to have faith in the firm and this, everyone knows, is the largest item in cutting down sales resistance.

The regular advertisement is the surest way to build up confidence and to cut down sales resistance whether it is a large automobile manufacturer or a merchant in the smallest town in the United States.

Good advertising builds sales.

Miller Tire Tests Show Heat Ravages Have Small Effect

Tires do not sweat to cool themselves when they are hot, neither do they stop to rest. They are at the mercy of the driver. About the only way they can show the effect of a higher temperature is to wear down more rapidly in hot weather.

Of course the rate of wear depends on atmospheric temperature, on the temperature of the roadway and the speed at which the tires are driven. The humidity which makes life so miserable for many humans does not seem to add any burdens to tires. But actual high temperature from any cause, is different.

Some tires are built so that the

flexing process creates unusual heat. Others have been built on such strictly scientific principles that flexing alone raises the temperature of the tire very little. At any speed, an increase of from 40 to 60 degrees in the temperature will frequently cause an increase of wear of over 90 per cent and an increase from 60 to 80 degrees will cause an additional increase in wear of over 120 per cent on some types of roads.

In recent tests conducted by the Miller Rubber Company on Florida roads, all cars running at the same speed, all makes of tires tested showed a 70 per cent increase in wear at only 15 per cent change in temperature.

Many other factors affect the rate of wear in hot weather—curves, starting, and stopping, road surfaces, etc., all have a bearing on the wear a tire will give.

There is no particular remedy for this wear unless one drives more slowly in the hot weather. If speed is necessary, the motorist should remember that faster wear is the natural result.

INDIGESTION

Taxi Driver Goes Back To Medicine He Had Taken When a Boy To Find Relief.

Nicholasville, Ky.—"Running a taxi is my business, and I am called out at all times, sometimes just before meal time, and this makes my eating as well as my sleeping very irregular," says Mr. Jesse Dickerson, of 502 Central Avenue, this city. "I had indigestion, on account of this irregularity. I would feel very uncomfortable after meals. I would be constipated and have dizziness. I knew I had to take something. I remembered how, when at home before I was married, my mother would give us Black-Draught, and how she believed in it.

"So I decided to take it again. It sure did me good. I am glad to let others know what a good laxative Black-Draught is. It clears up a dull headache, and makes me feel like a new person."

Thousands of other men and women find Black-Draught a great help in relieving common ailments, due to indigestion, constipation and biliousness.

In thousands of families, Thedford's Black-Draught has a corner all its own on the medicine shelf. In use nearly 100 years. Safe, efficient, reliable.

Personal Bias

I realize that in the matter of this sort every man is inclined to look at the question from his own personal standpoint. In the course of his sermon a preacher once asked the question: "In time of trial, what brings us the greatest comfort?"

"An acquittal," shouted a low-brow who should never have been admitted by the usher.

Use Your Head

Mrs. McTavish ran into the house in great excitement crying, "John, there's a cow in the garden."

"Don't stand there wasting valuable time," replied John. "Go back to the garden and milk it, and then chase her down the road."

Miss Louise Pierce and Lois Dyer Are Wed in Navasota Ceremony

Mrs. C. W. Bradbury was a member of the wedding party of Miss Louise Pierce and Lois Dyer in Navasota last week. The following account of the wedding appeared in the Houston Post-Dispatch:

Miss Louise Pierce and Lois Dyer were married at the First Baptist church with Rev. W. N. Purcell performing the ceremony. A program of wedding music was given by Mrs. R. F. Foster, pianist; Mrs. C. W. Bradbury, violinist of Cameron; Miss Margaret Sangster, vocal soloist; and Loran Pierce, brother of the bride, tenor. The altar space was banked with ferns and artistic grouping of tall floor baskets filled with pink radiance roses and ferns lent a pleasant color note. Festoons of ivy linked the clusters of light globes and from the central cluster was depended a shower of roses and ferns. From amidst the ferns gleamed white candles in silver candelabra. The bride, who is the eldest daughter of Mr. and Mrs. L. S. Pierce, wore a charming ensemble of royal blue crepe, with blouse and hat accessories in harmonizing shade. Her bouquet was valley lilies and pink radiance roses. She was given in marriage by her father. Attendants were Mrs. L. A. Little of Lufkin, matron of honor, in pink georgette and cream lace; Miss Ethelyn Barry, maid, who wore a pink ensemble with short coat in floral print; little Miss Gloria Mae McGontry, flower girl, in dainty frock of pink orquard with pink hat, and Marion Pierce, small brother of the bride, in white suit. Bouquets were of ferns and pink roses in colonial arrangement. Dewey Hamblin served as best man; Earl Dyer, brother of the groom, as groomsmen; ushers were Onis Dyer and J. L. Pierce, brothers of groom and bride, respectively. Immediately following the ceremony Mr. and Mrs. Dyer departed via automobile for Houston and New Orleans for a wedding trip after which they will be at home in Stoneham.

The Essex Car

Is only one of the many desirable things we have in stock. It is the best of its kind, of course in our opinion. Equally as good in its way is the spirit of courtesy we put behind it, the maintenance system we provide for all its owners, the personal interest we take in each and every one of them, the conscientious effort we make to do things right and earn our customers friendship.

The Essex car is a great machine and deserves that kind of backing. But the credit for that goes to the Essex factory. We could not build it here if we wanted to but we can build a business atmosphere to match it in quality, and we work days and nights to accomplish that purpose.

The Essex owner is the judge of our success. Ask him about the spirit of our business.
